THERE seems a kind of necessity to mention a few Particulars respecting the present Publication, which otherwise would be willingly avoided.

A Catalogue of the Alumni or Scholars of ETON Foundation was formerly published, chiefly from a MS. collected by Mr. Tho^r. Hatcher of King's College to the Year 1563. This MS. has in general been hitherto followed, and different Copies have got abroad, one of which is in the Lambeth Library, with a Continuation to the Year 1641 by another Hand.

It is also well known to all that have connexion with ETON, that it is the usual practice to cut the Names of the Scholars who go off to KING's College on the Pillars, or other conspicuous parts of the antient or lower School. This Custom began in the Year 1573, and has, with small Interruption, continued to the present time.

From these Materials the above Catalogue of the Alumni was printed. The present Publication is farther extended, and includes the Provosts of the Two Royal Foundations of ETON and KING's; likewise the Fellows of the former College from the First Establishment, continued in like manner also to the present time.

Works of this nature must of course be imperfect without the aid of Archives or publick Records. This appears in the present case, the former Catalogue being found to be very erroneous, especially in the early part of the Foundation, prior to the Year 1500. These mistakes are now rectified, on better Information; and by the favour of the Provost and Fellows, this Publication in every part is authenticated by the College Register.

Notwithstanding this ready assistance it is possible some errors may arise in so great diversity of Names and Dates. The Orthography or right spelling of Names is subject to variation, from the conception or apprehension of every Writer or Copiest. This Inconvenience has been attended to, the several copies have been compared, and where any material difference occurred, it is noted by proper references in each Page. In this pursuit, an observation naturally arises, that whoever applies himself with any degree of accuracy to these necessary, though to appearance minute, circumstances, will find the attention to Names and Dates not the most agreeable Amusement.

The Editor is well aware that Publications of this nature are by many held of small Account. Local Publications however are of general use, and may with propriety be compared to the roots of a Tree, which tho' little regarded themselves, are the Support, and give Life to the whole Body; Without their nourishment they wither and decay. In like manner History, and Biography especially, wanting these necessary helps, would equally lose their best Support, and die away in error and uncertainty.

After these general remarks, a peculiar regard is due to this Royal Foundation, where so many learned Men have had their Education; and within whose Walls great numbers of the Nobility and Gentry of the Nation constantly receive their First Principles of Learning, and in their several Ages become Ornaments to their Country, both in Church and State. In this manner have these noble Establishments fully answered the good Purposes of the Pious and Royal Founder; a Prince, who, in early life extended his Views to Futurity; and zealous for the advancement of Learning, in the day of Trouble, and under the severe Trial of Civil War and National Discord, which brought him at last to an untimely Death, (greatly meriting a better Fate !) so munificently founded
not

not only this his Royal College of ETON, but also KING's College, Cambridge, to which, as that learned Antiquary Master Lambarde expresseth it, ETON annually sendeth forth her Ripe Fruit.

To conclude. The Advantages arising from the Lambeth MS. are not confined to the present Catalogue. It contains particular and literary Memoirs of many Members of the two Royal Foundations. This MS. has been copied by the singular favour of his Grace the Lord Archbishop of Canterbury. A Collection of the like nature has also been occasionally attended to for some time past. These with the late acquisition of Master Allen's * Volumes, however indiscriminately amassed, may hereafter engage some able Hand to enlarge and improve this Publication, to the honour of the two Societies, and the benefit of Literature.

Jan'y. 4, 1774.

* Anthony Allen, Esq. Master in Chancery, sometime Fellow of King's Coll. made a general and large collection of many Particulars, respecting these Royal Foundations, and by his Will dated Oct. 22, 1753, directed that two Copies should be taken of them; the one given to KING's College, the other to the late Rt. Hon. ARTHUR ONSLOW, Esq. A Copy also is in ETON College.

REGISTRUM REGALE.

PRELIMINARY OBSERVATIONS.

KING HENRY VI. succeeded his Father HENRY V. August 31. A. D. 1422.—This Prince, A. D. 1440 (41) founded the College of ETON, by the Name of the Blessed Marie of Etone besyde Wyndesore.

The several Charters of Foundation bear date at Wyndesore, September 12. A. D. 1441. reg. 19.—A second, at Shene, 11th October; and a third, de Dotatione, 25. March following.

By the second Charter, dated at Shene, are appointed one Provost, ten Priests or Fellows, four Clerks, six Choristers one Master, and twenty-five Scholars. This Establishment afterwards underwent some Alteration, and the College Settlement was, one Provost, seven Fellows, two Priests or Conducts, eight Clerks, ten Choristers, two Masters, and seventy Scholars, with subordinate Officers, as at present.

The Charter of the College was confirmed by Act of Parliament at Westminster, May 4. A. D. 1444. reg. 22. And, according to the custom of the Age, begins with the expressive Illumination, or Blazonry annexed.

KING HENRY, in like manner, February 12. A. D. 1441. founded also a College at Cambridge, dedicated to St. Nicholas, called the King's College of St. Nicholas, Cambridge. This first Foundation consisted of a Rector and twelve Scholars or Fellows.

William Millington, R E C T O R.

Fellows, or Scholars.

John Kirkby
William Hatecliffe
William Towne

Nicholas Cloos
John Hollande
Robert Woodlarke.

These six Scholars only appear, and probably no more were entered.

King HENRY, two Years after, enlarged also this his first Plan, and by Charter bearing date July 10. A. D. 1443. reg. 21. erected a new Foundation or College at Cambridge, dedicated to the Virgin Mary and St. Nicholas, commonly called the King's College of Blessed Marie and St. Nicholas of Cambridge. This new Foundation, exclusive of Priests and subordinate Officers, consisted of a Provost, and seventy Fellows or Scholars, who were to be supplied, by regular Succession, from his Nursery at ETON.

The following Pages contain,

- I. *The PROVOSTS of ETON, and KING's College Cambridge.*
- II. *The FELLOWS of ETON College.*
- III. *The annual Succession of the Scholars, or Alumni, from ETON to KING's College.*

It is proper to remark farther on this Publication, that the annual Election into the two Royal Foundations of ETON and KING's COLLEGE, is the latter end of July, or the beginning of August, at the appointment of the two Societies; and that the Alumni, or Scholars of ETON, at the expiration of three Years, from the day of their Admission into KING's College, are elected Fellows of that College.

(a) "*Fellowes (these Four) it may be of the first Foundation under Provost SEVER, but appear not in the number of the present ones.*" Lambeth MS.

The above Remark from the *Lambeth MS.* makes it matter of doubt if *Kett, Astone, Deane* and *Profert* here mentioned, were *Fellowes* of the College. Be it observed on this occasion that the Six following, *John Clerc, Thomas Harlowe, Thomas Weston, William Weye, John Bouer, with William Waynflete*, were appointed by the Founder, *Fellowes* on the Establishment under Provost SEVER, and are so named in the Charter of Foundation. Farther, in the Charter dated at *Shene*, An. Reg. 19. *Johannes Kett Clericus, Willielmus Astone* and *Willielmus Deane* are called *Socii Sacerdotes*; These, probably were of the first designation or appointment, and allowing a small variation in their Names, do agree with the first Three above-named, and with *William Profert* make the number *Ten* agreeable to this new Establishment.

(b) On the promotion of *Waynflete* to the See of *Winchester*, A. D. 1447, the *Fellowes* of *Eton* were,

John Clerc. <i>Vice-Provost</i> , Thomas Weston William Wey John Bouer John Blakeman		John Ernysby Robert Hefil Richard Skellyngton Thomas Barker John Maberthorpe.

Clerc was elected Provost, 3d. of July, 1447, and *John Mansbull* succeeded in his room the *August* following.

The College afterwards underwent some alteration in the number of the *Fellowes* and other particulars, as is before remarked in the *Preliminary Observations*.

* The troubles of K. HENRY's reign greatly encreased in this year; and, in the year 1461, he was deposed.

From 1459 to 1466, there was an interval of six years, and no regular Election of Scholars at ETON. KING'S COLLEGE was in a manner dissolved; all the Scholars, and the greater part of the Fellows, were dismissed. There are no *Commendat* to be met with at KING'S COLLEGE,

till the 6th of EDWARD IV.

† If Mercer and the ten following Scholars here set down, were admitted, it must have been between *Michaelmas*, Ann. 39. HENRY VI. and Ann. 6. EDWARD IV.—

† Frye, Denys, and Merston, were this year Scholars at KING'S COLLEGE; it is therefore probable the first Election in K. EDWARD's reign was in this Year.
